

## Weekly Progress Report (<Week 4>)

### <Team No. 509>

#### Sprint Review:

Status of the current sprint

User Story ID/ Item No.	Story Points	User Story Link	Owner	Status	Remarks
US00001	2	File to be made	Nhan	In-progress	Need to build out concrete implementations for classes and interfaces in UML graph
US00008	3	File to be made	Ari	In-progress	Can work on design and component but requires cells for full functionality
US00009	3	File to be made	Nikolas	In-progress	Can work on design and component but requires cells for full functionality
US00003	3	File to be made	Minh	In-progress	Need to build out concrete implementations for classes and interfaces in UML graph

## **Individual Contributions:**

Ari: Meeting Friday (10/20) to finish the report for phase B. Met Wednesday (10/25) to discuss concrete implementation details and divide the work for phase C. Created the initial React app.

Minh: Meeting Friday (10/20) to finish the report for phase B. Met Wednesday (10/25) to discuss concrete implementation details and divide the work for phase C

Nhan: Meeting Friday (10/20) to finish the report for phase B.

Nikolas: Meeting Friday (10/20) to finish Phase B; finalized uml design. Met (Wednesday (10/25) to discuss the first sprint.

## **Sprint Retrospective:**

What went well in the previous sprint?

During our last meeting, we were able to finish the UML diagrams and interfaces/classes for the report for phase B and submit those on time.

What obstacles were encountered in the previous sprint?

During the last meeting, we didn't encounter any particular problem, but for phase B, the UML design process took up the most amount of time.

What can we improve in the next sprint?

For the next sprint, we will focus on Phase C of the project and start building concrete implementations of the interfaces/classes and front-end visualizations for our SpreadSheet application. We can improve our time management and check-in with each other more frequently to get this done.

## Sprint Planning:

Plan for the next sprint

User Story ID/ Item No.	Story Points	User Story Link	Owner	Status	Remarks
US00004	3	File to be made	Nhan	Blocked	Concrete classes need to be implemented in order to work on this.
US00005	3	File to be made	Nikolas	Blocked	The biggest challenge is getting cell references to work.
US00007	4	File to be made	Ari	Blocked	Concrete classes need to be implemented in order to work on this
US00006	2	File to be made	Minh	Blocked	Concrete classes need to be implemented in order to work on this
